The President's Letter

To: All Dallas Mopar Club Members and Families

At least we have our health, as my dad used to say. No. Not really. Not any more. The new normal may be here. We must all be able to adapt. I hope that you all are in good spirits and well. I wish all the hospitals good luck.

And finally, I wish we didn't have such goings on in our country.

That said, I present a few news items.

- Sunday July 12th, 2 pm is our next club meeting at our NEW LOCATION.
 - At noon I will host our monthly board meeting. All welcome.
- July 25th the Fort Worth Cowtown Mopar Club will finally be hosting their annual show. See their web site for details. I hope to have a good turnout from Dallas.
- Saturday August 8th, at the NEW VENUE of the NTMC (North Texas Mustang Club) we will be the featured car club at their evening car show. The show is about 3 miles west of I35 on old Main St. (Lewisville) and is actually in Flower Mound.
- Saturday September 5th, in Rockwall will be our 36th annual Mini Nats. Entry fee \$25, and early registration is now online. No early discount, but you get a free shirt.
- Saturday September 19th we are holding our annual joint Cowtown/DMC picnic.

All above subject to Covid-19 of course. July 12th alternate board/monthly location will be Garland Central Park, like the last 2 months, at the picnic tables.

**NEW MONTHLY/BOARD MEETING VENUE IS THE SPRING CREEK BBQ AT
14941 MIDWAY ROAD, WEST SIDE OF ROAD, JUST BEFORE BELTLINE ROAD.**

Street Survivor, 1966 Plymouth Satellite

Robert purchased this car a couple of years ago from a former club member. As far as I can tell, the car has never been wrecked, but it has lived in some rather bad places to be a car. (Florida, New Jersey, New York, and Ohio) It has some bondo, and a little rust, but it is a Factory 383 4-speed car. I'm 99% sure it is the original engine also. I have some documentation that the second owner had the engine rebuilt "back in the day" (1971) by the same guy that did machining for Big Daddy Don Garlits. He ported and polished a set

of 516 Heads for the car. These were early closed chamber heads, prior to the 915's used on the 67 GTX and had smaller valves. TRW domed pistons, a Crane H 302 NC cam, Offenhauser dual quad intake, Headers, Mallory Hy-Fire ignition, Zoom Clutch and Flywheel. Additional mods were a SFI Steel bellhousing and a deepened oil pan. Back in '71, deep oil pans weren't as readily available as they are now, and this one was hand made from the original by cutting it in two and welding in a section.

The same was done to the oil pick up tube as well. Old school hot rod stuff!

After I got the car, naturally I took it to the track. I made a few passes at Xtreme and at the Motorplex. On my last pass at the Motorplex, when I got back to the pits there was a stream of water spraying out of the right front corner where the head meets the block. UGH. I could have just pulled the head and replaced the gasket, but it really needed new gaskets all around, and there was this bearing noise coming from the transmission. I took the heads to Dave to check them out. He said they looked good and I had him install some posi loc valve seals. I also had him resurface the flywheel, since the clutch needed to be replaced also. In the meantime, I tore into the transmission to replace the bearings and seals. I was hoping it was the input bearing but it wasn't. Nothing is ever easy. There is a needle bearing between the Main Shaft and the Input Shaft where the Input shaft serves as the outer race and the Main Shaft serves as the inner race. Luckily, I was able to get Dave to sleeve the end of the Main Shaft and replace the Input Shaft. So now I have a completely rebuilt transmission also.

After all of that, I wanted something better than the old Mallory Dual Point/Hy-Fire ignition. I opted for a new MSD Pro Billet Distributor and Digital 6 AL module with 8.5 mm MSD wires and Blaster coil. It is finally all back together and, on the road, again. Looking forward to getting it back to the track!

Brad help Jerry Reed get his 1966 convertible Plymouth Satellite to the painter at the end of June. Jerry has had the refresh of the Satellite on his bucket list for 40 years!!!

Brad offered the paint it with a brush, staved of course.
