Notes From the President's Desk – March 2024

Welcome to Spring! Texas winters are not that long or severe but I still can't wait until Spring. Spring turns to summer pretty quickly around here so take advantage of the great weather to get those Mopar projects done now. There's a ton of shows and events over the next 2 or 3 months. I plan to make as many as possible and I hope to see several of you there.

The Dallas Mopar Club met for our monthly meeting on March 10 at the Garland VFW. We had a good meeting, albeit a little long, and we covered a lot of ground. We discussed the recent AutoRama show and the group agreed that the DMC will plan to have a display at the show again in 2025. There's some ongoing discussion about the number of vehicles, location of the show display in Market Hall and the pros and cons of a joint display with the Cowtown group. We had one of the best displays at the show and we'll be working on the plans for 2025. Hopefully we'll have members that are ready and willing to participate again. If you missed last month's newsletter, go back and look at the great pictures from AutoRama.

We also discussed our plans to get our sponsors lined up for the Fall show in September. For as little as \$125, you or your company can be advertised in the Newsletter for a year in addition to having your ad on the official 2024 Southwest Nationals t-shirt. You can call me or any of the officers / directors for more information. Among the many shows and cruises that are planned, I have a couple of favorites I want to mention.

- March 23 – Mopar Magic show – Shreveport, LA. We have 2 or 3 members making the trip.
- April 6 - 2nd Annual Clint Cash “Chow Down” and Swap Meet (see flyer in this newsletter)
- April 20th - 38th Annual Mopar Round-Up – Speedtek – Haltom City (see flyer) (This is a big show produced annually by Cowtown Mopars. They do a great job and always have a nice collection of vehicles. Several DMC members usually make this show. Entry fee \$20 plus for \$60, you can get a chassis dyno “pull” to see what that Mopar is really putting to the ground.)
- September 28 - 40th SW Mopar Nationals Show – Rowlett, TX (See flyer)

There's tons of other shows and cruises. These are 'All Mopar' but I know we'll be seeing each other at lots of local shows.

Due to the “Chow Down” on April 6 in beautiful Nevada, TX, we'll have a brief DMC meeting there and we will NOT be meeting in Garland at the VFW in April. All members are invited to attend the Chow Down and meeting. Our May monthly meeting will move back to the Garland VFW, 2180 Meridian Way but it will be on the 3rd Sunday of the month, the 19th of May. The 2nd Sunday is Mother's Day and that will be a good day to take Mom for a ride or maybe have Mom take you for a ride. In June, we should be back on our regular schedule on June 9 at the VFW.

We have some new members and we've had several renewals. There are still a few members that have not renewed their 2024 membership. Please renew NOW. You don't want to miss any action.

Also, to all members, new and old. Send us info regarding yourself and your Mopar. A few paragraphs and a couple of pictures is all we need to feature your vehicle in the newsletter. Our members are interested in knowing more about you and your car(s).

Thanks for your great support of the Dallas Mopar Club. See you at the “Chow Down”.

Dallas Mopar Club March Minutes

Meeting minutes March 10-2024

Meeting occurred at VFW Post 5076 2180 Meridian Way, Garland 75040

Club meeting was called to order at 2:02 PM by president Bob Gant, 13 members were in attendance.

Following the pledge of allegiance Bob made a motion to approve the minutes from the Feb meeting, Cece 2nd the motion.

Bob then welcomed new and returning members in attendance

Bob then turned the meeting over to club treasurer Andy Dicus who presented a detailed financial report with copies passed out to members. He went over the bank activity for the past month. Andy made us aware that a new accountant for the club has been secured.

A group discussion then ensued concerning membership and club sponsor recruitment. Questions discussed were; What more can we do for our sponsors? Should we have a sponsor of the month highlighted in the newsletter? Do we need to create a package of exposure benefits to present to potential sponsors? Could we putting scrolling ads on our Facebook page and the DMC website promoting our sponsors? Club member Larry Dick offered to explore the scrolling ads suggestion.

Next discussion commenced concerning the AutoRama that occurred last month. It was suggested that possibly we do not partner with Cowtown Mopars next year. Cece wondered if submitting our applications earlier would get us a better location in the main display area. Jerry Reed mentioned that the stanchions and chain we use to rope off our area could stand to be improved / upgraded. No definitive decisions were made other than to revisit some of these ideas during the year.

Bob then brought up the Mopar Magic Show occurring on March 23, and the Chow Down at the Clint Cash warehouse complex in Nevada on April 6. Cece presented a schedule her and Clint agreed on concerning the swap meet and show times. Bob mentioned the next club meeting will occur at this event. Bob also mentioned the May club meeting at the VFW in Garland will be on the 19th due to Mother's Day.

Bob then asked me for a racing update, I stated the TMCCC season was scheduled to start on March 24 at Extreme Raceway Park in Ferris.

Motion to adjourn at 3:37 PM by Bob Gant.

Members then gathered in the parking lot to swap stories and view some Mopars driven to the meeting.

Meeting minutes submitted by Craig Bush

2024 Dodge Charger Daytona First Look: Ohm-gee! No More Hemi!?

Will Dodge's first electric muscle car overcome resistance from the brand faithful?

[Alisa Priddle](#) *Writer* Mar 05, 2024

Dodge pulled a fast one. It was about 18 months ago that Dodge showed a concept of what an electric muscle car would look like. That car, the Dodge Charger Daytona SRT EV, was a modern take on the brand's signature snorting performance and was designed to appeal to Hemi-loving motorheads while convincing them to try electric power.

The Charger family will be available in two- and four-door forms, in eight colors, with either pure electric or twin-turbocharged Hurricane inline-six power, and several performance tiers. Electric Chargers get a 400-volt electrical architecture, except for the upcoming high-performance SRT Banshee variant, which will use an 800-volt setup. All Chargers, gas or electric, will have standard all-wheel drive. All will have Fratzog badges all over—because we like how it looks, don't overthink it, Kuniskis says. Instead of Dodge, the EVs will spell out Daytona across the back.

Production of the 2024 Dodge Charger Daytona two-door EV will begin mid-year at the Windsor Assembly Plant in Canada. The car will launch in two higher-performance trim levels, starting with the 456-hp Dodge Charger Daytona R/T with the Direct Connection Stage 1 upgrade kit that increases horsepower by 50. That power figure gets a 40-hp boost from the Power Shot feature, which delivers the extra grunt for 15 seconds with the press of the button on the steering wheel, upping peak horsepower to 496 ponies. The button needs a 30-second rest and then can be pressed again. Peak torque (as combined between the front and rear drive motors) is 404 lb-ft.

The other trim at launch is the 2024 Dodge Charger Daytona Scat Pack, with an 80-hp increase courtesy of the Direct Connection Stage 2 kit and an available 40 hp from the Power Shot, bringing it to 630 hp nominal (670 ponies with the Power Shot boost) and 627 lb-ft torque. The Scat Pack has an estimated zero-to-60-mph time of 3.3 seconds and is said to smoke the quarter mile in 11.5 seconds. It also adds

drift and donut modes to change the amount of slip and emulate rear-wheel drive. The Scat Pack is designed to be the ultimate Dodge performance car until the SRT Banshee joins the lineup in 2025.

Eventually, electric Chargers will be available with a single rear motor with 335-hp and 314-lb-ft of torque, but the Daytonas for now all have a second motor, as well as a 100.5-kW lithium-ion battery with nickel, cobalt and aluminum chemistry and peak discharge rate of 550 kW in a world where 320 kW is considered good. (That big-time discharge rate, Dodge says, is to help the Charger deliver blistering acceleration and perform its best over the entirety of a quarter-mile run.) The Samsung prismatic cells will come from Korea in the first year and transition to ones made in Kokomo when the U.S. plant is up and running in 2025 or 2026.

Range is 317 miles for the R/T and 260 for the Scat Pack, says Chief Engineer Audrey Moore. Both vehicles can go from 20 to 80 percent charge in about 27 minutes with a Level 3 DC CCS fast charger. Estimated peak charging capacity is approximately 9.9 miles per minute of charging time for the Daytona R/T and 8.1 miles per minute for the Daytona Scat Pack, using a 350-kW fast charger. Stellantis is still sorting out the adapter situation with corporate plans to adapt the NACS system.

Big Wheels, Brakes, and Fratronic Sound

The Charger's tires and brakes have been bumped up to handle the power and, we assume, extra mass onboard the battery laden Daytonas. There are nine new wheel designs starting with 18-inchers and going all the way up to the 20-inchers on the Scat Pack's Track Package option with Goodyear Eagle F1 SuperCar 3 305-section front and 325-section rear tires. Huge 16-inch Brembo vented rotors and six-piston front and four-piston rear brake calipers help that version stop. Every Daytona gets a multilink front suspension, independent rear, and has dual-chambered adaptive damping tuned for each drive mode. The body is 20 percent stiffer than before.

Dodge calls the Charger a multipurpose vehicle because the rear hatch—yes, it's a hatchback—provides 38.5 cubic feet of cargo room, which is 133 percent more than in the current (not-small) Charger and enough to fit four tires and wheels. (That means you can take a spare set to the track.) The rear seats fold flat, though they are not powered; push a button on the seat or reach for the release hands in the cargo area. There is a hidden hatch under the cargo floor and the EVs have a frunk with an extra 1.5 cubic feet of storage.

Uconnect5 Packed with Data

A lot of attention went into the features of the Uconnect5 Android-based infotainment system that delivers a wealth of information via the driver screen and optional head-up display. There are multiple graphic layouts and a lot of effort went into making it easy to find the information you are looking for. There is a lot of "Dodge stuff" such as performance pages, race data, G-force meter, drive mode information, optional driver experience recorder for the first time on a Dodge, as well as EV stuff like charge levels and the location of chargers.

Full story can be found at:

Dallas Mopar Club

Time to Renew DMC Dues for 2024

Club membership dues for 2024 are needed to remain a member in good standing and to continue receiving the *PentaStar Press*. You can renew or join by going to the Club's website, www.dallasmoparclub.com and pay with PayPal, or renew by mail or pay at one of the Club events. Your email address is especially important as an email is sent out when the newsletter is posted on the website. Thanks to those who have already renewed their membership.

Single membership is still \$25, and Family membership remains at \$40. Current members need not fill out a membership form for renewal unless a change is needed for membership information the Club has on file.

Join or renew by mail fill out a membership form send check to:
Andy Dicus, PO Box 193, Scurry, Tx 75158

Membership updates:

- a) 2024 Dallas Mopar membership cards/badges are available on line through DMC website.
 - a. Current and new members can print DMC membership card
 - b. Log on to <https://dallasmoparclub.wildapricot.org/>
 - c. Click on "Become a DMC member" on DMC home page and click on:
"Edit your membership profile"

- d. Click "Printable PDF" to print your 2024 DMC Membership card
